

# Our journey to becoming Viapath

## Brand Update issue 5

This issue of our Brand update is dedicated to information and reminders about IT.

### Changes to our IT systems

Most of the work to change things like references to GSTS and logos to our IT systems will take place in the background, things like the LIMS, Cyberlab/ROL/Data 8 etc.

Please keep a look out for Icons changing to the new logo for applications such as Pathnet.

### Web Addresses

On the day of go-live, various web addresses will be changing as detailed in the table below.

The Company portal (aka 'GSTS portal' or Company UAG (Unified access gateway) is used to access all of our applications that are hosted at the data centre(s) and is accessed by a wide number of you across all our sites. If you find you cannot access the old URL on the day or go-live then please attempt to access the new address.

Old URL	New URL
<a href="https://sag-wan.gsts.com">https://sag-wan.gsts.com</a>	<a href="https://sag-wan.viapath.co.uk">https://sag-wan.viapath.co.uk</a>
<a href="https://sag-web.gsts.com">https://sag-web.gsts.com</a>	<a href="https://sag-web.viapath.co.uk">https://sag-web.viapath.co.uk</a>
<a href="https://passwordmanager.gsts.com">https://passwordmanager.gsts.com</a>	<a href="https://passwordmanager.viapath.co.uk">https://passwordmanager.viapath.co.uk</a>

If you are using an internet favourite or another shortcut eg desktop shortcut then please make sure this has been updated to the new URL.

### email addresses

Those with GSTT or GSTS email addresses will change to @viapath.co.uk during the course of the 1<sup>st</sup> May. Those of you with @nhs.net and @bedfordhospital.nhs.uk addresses will keep these for now.

### email signature

We'll shortly be circulating a document that tells you how to add a standard email signature to your emails. Please arrange to follow the instructions at your earliest opportunity.

### Remember... the S: drive doesn't change

The GSTT S: drive link to GSTS wont change on the 1 May, this is because it will cause issues for your shortcuts. We'll address this over time

### Q. What to do if it you have an IT problem?

In the first instance please approach your local laboratory IT officer for assistance in making these changes.

If this is unsuccessful then please log this issue with your Local IT service desk.
